## Boosters Income & Expense: Station Water Support

So our revenue is down just about 50% from 2014. We need to make a decision on continuing with the Booster water or station fund water. Since the station fund began a few years ago.... its been a drain on the Boosters ability to have a steady income source and frankly, we are in competition with one another.

The station fund is not capable of providing the types and levels of support that the 40 year old Boosters organization have. The station fund was initially established to sell station shirts, coins, etc.

Let me know how you wish to proceed. I do have info on coolers...
